ABOUT ME

Passionate and self-motivated front-end developer with 4 years of hands-on experience in building responsive web applications using React.js and Next.js. Known for strong problem-solving skills, a sharp attention to detail, and the ability to learn new technologies independently. Committed to writing clean, maintainable code and delivering seamless user experiences. Thrives in collaborative environments and adapts quickly to changing project needs.

EDUCATION

Bachelor of Web Programming

DPI College
2020 - 2022

Associate of Programming

DPI College
2018 - 2020

EXPERIENCE

2022

-
present

Front-End Web Developer

DRP Company (Danesh Refah Pardis)

- I contributed to the development of the Refah Internet Banking platform, a nationwide system that enables users to perform key banking transactions. I leveraged technologies such as Next.js, Material-UI, RESTful APIs, and Context API to deliver high-quality features.
- Collaborated closely with backend and design teams to ensure optimal performance, usability, and scalability. The platform plays a critical role in delivering essential digital banking services across the country.

2021

-
2022

Front-End Web Developer

DPI Company (Former Official Representative of IBM)

- I was deeply involved in developing scalable and user-friendly features using React.js, React Router, Redux, Axios, and Progressive Web App (PWA) technologies.
- The project was an internet banking platform, and by implementing PWA standards, we ensured a fully responsive experience for iPhone users without the need for a native app.

2019

-
2020

Front-End Intern

DPI Company (Former Official Representative of IBM)

- I gained hands-on experience in responsive design and strengthened my skills in JavaScript, HTML, and CSS through real-world projects and team collaboration.
